

Institutional Distinctiveness 2016-17

In order to achieve the Vision and Mission of the Institute, the Principal used to hold various meetings with senior faculty and the management committee. The budget for purchase of buses was allocated by the management. Initially small numbers of buses were purchased and few were hired on rent basis due to financial constraints. The Principal deputed various teams of teachers for campaigning purpose in various Schools of nearby villages covering about a radius of 25 km. This practice is done during the leisure period of faculty. Parents and admission seekers are informed about the courses offered, the facilities, student welfare schemes and the admission process. They also provide guidance and counseling regarding the options available not only in the College but also elsewhere. The parents are convinced to educate their daughters wherever found reluctant due to social or financial constraints. Students' parents are informed about the fee structure and the economic transport facility provided by the College. During the admission process the routes are analyzed by administrative staff. Common Bus stoppages are decided on all routes. Special bus stoppage is allowed if five or more students belong to any remote area. Various sister institutions are running under the same management. The transport facility is also shared by staff and students of these institutions. These institutions have nice collaboration with each other. Time table and local vacations are adjusted accordingly to make the practice more efficient. During examinations days bus timings are adjusted as per the examinations schedule. It has been realized that the students of remote area would not be able to complete their education without the transport facility. At present the institution is providing concession of more than Rs.400000 (Rs. four lacs) in transport budget. The intention behind this practice is to minimize the financial constraints of these needy, rural and economically weak students. A number of people, dignitaries, NRI'S and politicians have contributed a lot to run this practice successfully.
