"Earth Day"

On April 22, 2023 Earth Day was observed in order to "Save the Earth" at Khadiu Sahib College. On this occasion "Poster-making Competition" was conducted and students made their posters/painting competition in connection with 'Earth Day'.

- (i) how can we save our Earth
- (ii) how we pollute our Earth Planet
- (iii) how we can make clean and green
- (iv) how hazardous works are done to harm our Earth

A team of judges was comprised to evaluate their paintings and this team decided the best paintings of the students and they were rewarded as well. Our worthy principal and respected teacher were also there. Our esteemed principal appreciated the efforts of the students. He also thanked all organisers of the event.
